Observations during functional/Regression testing in non-production environment for Maven Card:

	Description	Resolution	Follow-up ticket
1	For Maven Card's "Learn more about Maven" and "Dismiss" texts font-family showing as "Sanserif".	As per Figma, dismiss button in maven card font-family: Fieldwork but we have added font-family: Fieldwork, sans-serif due to sonar issues.	
2	While testing padding while opening Dismiss functionality. Dismiss text and Padding are overlapping on Each Other	Working as expected, confirmed by dev team	
3	Maven card was not loading at first time after logging in on Dashboard or Get care or Benefits page.	Intermittent issue, Clear the Caches and Cookies	 DIP-11799: Not able to see Maven card on get care page intermittently DONE
4	Recommended for you section is still displaying the after the maven card was deleted. After refreshing only "Recommended for section" was disappearing.	Intermittent issue, Clear the Caches and Cookies	 DIP-12241: Recommended for you section is still displaying the after the card was deleted. After refreshing only "Recommended for section" is appearing. IN PROGRESS
5	Extra gap showing between Get started link and Arrow, in text button.	Working as expected, confirmed by dev team	

6	For one user not able to see Maven card in Benefits page - 71500117400H70	Intermittent issue, Clear the Caches and Cookies	DIP-12248: User not able to see Maven Card in Benefits page. Even Maven Card present in Dashboard and Get care pages DIP-12250: Maven card is hidden when user clicks on learn more button CANCELLED DONE
7	For ADA Testing, from "Dismiss functionality" to "Learn more about maven button" it takes Extra Tab key click was needed	Dev Team working on the Ticket	DIP-12176: Issues found in ADA testing in Maven Card DONE
8	User not able to dismiss Maven Card in ADA testing	Dev Team working on the Ticket	DIP-12176: Issues found in ADA testing in Maven Card DONE
9	While Disabled the Kill switch for maven card, Maven card not loading while navigating from Get care or Benefits page through back or Blue Shield logo.	Dev Team working on the Ticket	DIP-12606: Issues found in Maven Card While Disable the Kill Switch DONE

Observations during functional/Regression testing in non-production environment for Chat Bot Functionality:

	Description	Resolution	Follow-up ticket
1	Multiple Users are able to see all same chat history while using Chat bot	Working as expected, confirmed by dev team DIP-12237: Multiple Users are able to see all same chat history while using Chat bot DONE	DIP-12237: Multiple Users are able to see all same chat history while using Chat bot DONE

Release Sign-off Notes

[Add sign-off criteria, approvers, unresolved risks, and final release recommendation.]

▼ Optional sections to add later

- Linked test case execution summary
- Environment-specific test data mapping
- Business sign-off comments
- Go/no-go decision log
